

THINK BIGGER.

LEARN SMARTER.

GO FURTHER.

**Aiming for university, an apprenticeship
or straight into a STEM career?**

Come to our Open Evening and explore
how our STEM A Levels and T Levels in
Engineering and Digital Technology give
you the real-world advantage.

UTC LEEDS

OPEN EVENINGS

2026–27

A place for Future Engineers, Scientists,
Mathematicians & Digital Innovators

- 📅 Thursday 15 October 2026
- 📅 Thursday 10 December 2026
- 📅 Thursday 4 February 2027

4–7pm

WHY CHOOSE UTC LEEDS?

A Launchpad to Your Future

Work on real projects with industry giants like Siemens, Unilever, and local tech leaders, gaining the skills and insight that future employers want.

We Specialise in STEM

Every subject, project and partnership is built around Science, Technology, Engineering and Maths.

A Levels with Industry Insight

STEM A Levels enhanced with employer-led projects, workshops, and direct links to universities and companies.

Career-Ready T Levels

Take the technical route with T Levels in Engineering, Digital Tech and Science – each with 45+ days of real industry experience.

Student Experience

“The greatest thing about the UTC is that you’re not just learning how to programme something, you’re actually programming it, then using it.”
– Daniel, Y13

“The facilities here are industry standard – so when you step into the workplace, you and your employer feel confident.”
– Alexia, Year 13

“It's very different to school. The staff want to engage with you, listen to you and help you go that extra step.”
– Jo, Year 13
