Student Experience

Why choose UTC Leeds?

"I've always enjoyed taking things apart and putting them back together – so coming here just made sense! My old school didn't offer the same level of product design or engineering." – **James, Y11 Graduate**

"UTC Leeds gave our daughter the freedom to be herself and has given her the confidence and tools to reach her future goals."

– **Year 10 Parent**

What's it like to study here?

"I walked in and it just felt right. I liked all the engineering facilities and the general vibe of the place. It's just great, they're all very lovely here." – **Eloisa, Y13 Graduate**

"Our son's attitude to school has totally changed, he now wants to go and enjoys his lessons. He loves his sciences and is really enjoying the hands on engineering." – **Year 10 Parent**

What's the best thing about UTC Leeds?

"The greatest thing about the UTC is that you're not just learning about how to programme something, you're actually programming it then using it."

– **Daniel, Y13 Graduate**

"It's a very different environment to a normal school. The staff want to engage with you, listen to you and help you go that extra step rather than just getting a grade." – **Jo, Y13**
